The 60-120 Day Job Prep Plan

My goal is to: Work full time as a UX/UI Designer and continue side business as a Graphic Designer

Environment: Being able to support others motivates me. I like to learn new tools and concepts and find ways to bring value to others.

Learning: I like to learn continuously and be able to provide value to others through sharing my knowledge. I like having teammates to collaborate with on projects

Industries: e-Commerce, Finance, Software, Entertainment Industry, Film and Media Industry

Impact: It is important to me that the work I do has a positive impact on others. I aim to create an impact on a global scale and it must be able to create a better user experience for the target user.

Culture: A company that has a culture that promotes collaboration, innovation and pushing boundaries to the next level.

Outcome / Goal	Next 60 days, I will…	Next 120 days, I will…
